KAUFMANN Ammonia Cleaner Product Data Sheet

Application

Kaufmann Ammonia cleaner is a non-abrasive scouring crème designed for the cleaning of contaminated and dirty hard surfaces such as basins, baths, walls, tiles, stoves, granite and marble countertops, etc.

Advantages of the Kaufmann Ammonia include a beautiful fresh lemon scent without the overpowering smell of ammonia. Kaufmann Ammonia is highly active and does not bleach surfaces or leave yellow stains.

Dosage & Directions of use

Apply a small quantity of Kaufmann Ammonia cleaner to a damp cleaning cloth or non-abrasive sponge and rub over soiled surface. Spread evenly of area until grime is removed. Rinse thoroughly with clean warm water once surface is clean to leave a sparkling clean finish. Kaufmann Ammonia may also be applied directly to surface, where needed and then spread over the surface. Always remember, as with any chemicals, to use gloves when working with chemicals.
