## Quattro Shine 18% Product Data Sheet

### Description

Quattro Shine 18% is an opaque white polymer floor dressing for use on vinyl and tiled floors. No buffing is required as Quattro Shine is a dry-bright type emulsion. Quattro Shine also leaves a non-slip layer on the floors, with a lasting shine. Quattro Shine protects the floors from damage or chemicals and prevents the penetration of stains.

### Application

Wash the floor thoroughly and apply Quattro Shine 18% with a clean mop or applicator.

Apply two or more coats for a deeper, longer lasting shine, always allowing the previous coat to dry before applying the next coat. For approximately 24 hours, do not walk on a freshly applied surface.

The recommendations made herein are based on laboratory tests and in-field use experience and are to the best of our knowledge accurate. Since conditions of actual use are beyond our control, all recommendations are made without warranty, expressed or implied.

### Physical Properties

<b>Appearance:</b>	Opaque White liquid
<b>Odour</b>	Typical
<b>pH</b>	7-8
<b>Density</b>	1.00
<b>Solubility – Water</b>	Soluble
<b>Solubility – Solvent</b>	Insoluble
