Quattro Solv-hf92 Solvent Degreaser Product Data Sheet

REFER TO M.S.D.S. FOR TECHNICAL INFORMATION.

Description

Quattro Solv-HF92 is a powerful solvent degreaser that is water miscible at all dilutions. Quattro Solv-HF92 is generally used where parts / components are soiled with grease, oil, hydraulic fluids, etc. The product can be used in baths or small tanks for hand washing of components. Components can then be removed directly from the product on a tray or absorbent to dry to a temporary rust free surface. Ideal for moving-assembly products e.g.: bearings, hinges, and pivotal parts. If parts need to be oil residue free, hand or high pressure cleaning with water may be conducted but the parts must then be assembled and treated against rust immediately thereafter. This product does not contain metal corrosion inhibitors.

APPLICATION

The product can be used in pure form to dilution 1:20 dependant on application. Test dilutions for application specific for optimum results. Use according to M.S.D.S. Safety standards.

Physical Properties

Appearance:	Clear Colourless homogenous liquid.
Odour:	Neutral
Density:	0,753kg p/l @ 20°C
pH:	7
Flashpoint:	92°C min.

PACKAGING

Quattro Solv-HF92 is available in 25Lt and 200Lt pack sizes.
