Quattro Solvetechn PMC1 Product Data Sheet

Description

Quattro Solvetechn PMC1 is a composition of chlorinated and aliphatic solvents used as an electric parts and components cleaning safety solvent. Quattro Solvetechn PMC1 effectively removes oil, grease, tar, carbon, etc. from transformers, electrical motors, decarbonising contactors, switchgear etc. This product is ready to use on all metals, no dilution is required. Quattro Solvetechn PMC1 has a high flashpoint, is non-corrosive on all known metals. Quattro Solvetechn PMC1 has a **medium** evaporation rate.

Application

Cloth wipe, brush, spray or submersion.

Precautionary Measures

Test on plastic, Bakelite, varnish finishes and painted surfaces before use, as Quattro Solvetechn PMC1 may have a softening/dissolving or release action.

Health and Safety

Always keep container sealed when not in use. See M.S.D.S for health and safety regulatory use.

Physical Properties

Appearance:	Clear viscous liquid
Odour:	Characteristic Chlorinated Solvent
Specific gravity:	1.24 – 1.26
Flashpoint:	Closed cup. Not determined
Composition:	Methylenedichloride, Tetrasolve, Perchloroethylene

Packaging

Quattro Solvetechn PMC1 is packed in 20Lt and 200Lt Steel drums.
