Spring Valley Fabric Softener Product Data Sheet

Application

Superior softness is the hallmark of Spring Valley Fabric Softener. Spring Valley Concentrated Fabric Softener does not leave any residue and does not build up in your washing machine tray. A fresh, baby powder fragrance enhances the fabric long after drying that gives you the fresh-out-the-wash feeling. Spring Valley Fabric Softener works by coating the surface of the fabric fibers to leave the fabric electrically conductive, thus making the fibers feel smoother and preventing buildup of static electricity. Other functions are improvements of iron glide during ironing, increased resistance to stains, and reduction of wrinkling.

Dosage

- For hand washing, use one cap full on a hamper of laundry.
- For machine washing, fill the dispenser to the mark.

Physical Properties

Appearance:	Thick White Liquid
Specific Gravity:	0,965 - 0,985
pH	5,0 – 6,5

Packaging

Spring Valley Fabric Softener is available in 2Lt, 5Lt and 25Lt packaging.
